

CONTENTS

Elena Bezvesilnaya, Yuryj Podchashinsky, Alexandr Dobrozhashsky <i>Requirements for airborne gravimetry system</i>	5
Elena Bezvesilnaya, Yuryj Podchashinsky, Igor Korobyjchuk <i>Gravimeter with two-dimension digital processing of measuring information</i>	8
Mariusz Bogdan, Józef Błachnio, Marcin Derlatka <i>Computer-aided method of diagnostics of gas turbine blades</i>	13
Henryk Borowczyk, Paweł Lindstedt, Janusz Magier <i>A method of reliability characteristics estimation on the basis of adjustment and diagnostic information</i>	17
Sergey G. Chulkin, Aleksandr D. Breki, Irina V. Soloviova, Mikhail M. Radkevich <i>Research of base and alloyed oil MC-20 influence on the tribotechnical characteristics of roller bearings</i>	21
Mykolas Daunys, Povilas Krasauskas, Romualdas Dundulis <i>Fracture toughness of 19Mn5 steel pipe welded joints materials</i>	24
Tomasz Dzitkowski, Andrzej Dymarek <i>Synthesis and sensitivity of multiaxial drive systems</i>	28
Sezgin Ersoy, Sertaç Görgülü <i>Computer based education and progress alternative for electro-mechanics lesson</i>	32
Piotr Grześ <i>Finite element analysis of disc temperature during braking process</i>	36
Andrzej Katunin, Anna Korczak <i>The possibility of application of B-spline family wavelets in diagnostic signal processing</i>	43
Robert Litwinko, Wiera Oliferuk <i>Yield point determination based on thermomechanical behaviour of polycrystalline material under uniaxial loading</i>	49
Stanisław Piróg, Tomasz Siostrzonek, Marcin Baszyński, Jarosław Czekoński <i>The control system of the flywheel energy storage</i>	52
Małgorzata Poniatońska <i>Determining the uncertainty of the object coordinate system position in coordinate measurements of free-form surfaces</i>	56
Paweł Skalski, Krzysztof Woźnica, Jerzy Bajkowski <i>Parameters identification of bodner-partom model for fluid in MR damper</i>	62
Valentyn Skalsky, Oleh Serhiyenko, Denys Rudavskyy, Yuriy Matviyiv <i>Estimation of diagnostics of fibers failure in composite materials by the method of acoustic emission</i>	65
Vasiliy Stavrov, Vladimir Lashkovski, Anatoly Sviridenok <i>A biomechanical model of operated achilles tendon</i>	69
Tomasz Sudakowski <i>Premises of operational method of calculation of reliability of machines on the base of parametric and momentary symptoms of damage</i>	73
Heorhiy Sulym, Iaroslav Pasternak <i>Self-regular stress integral equations for the axisymmetric elasticity</i>	80
Kirill Voynov, Helen Chertok <i>Ball pump</i>	85
